

OAK BLUFFS WATER DISTRICT IMPORTANT NOTICE

The Board of Water Commissioners voted unanimously to implement a Mandatory Outdoor Water Ban for the Town of Oak Bluffs in June 2006 under the Water Use Restriction By-law of April, 2000.

This notice is a re-affirmation that the Mandatory Water Ban is still in effect for the 2015 season and is instituted not only to promote water conservation measures during our peak summer season, but is also intended to satisfy our Water Management Permit conditions with the State for water withdrawal.

Using the Enhanced 911 address system, all water customers who have odd-numbered street addresses may use outdoor water during odd-numbered calendar days. All water customers who have even-numbered street addresses may use outdoor water during even-numbered calendar days.

Please help us conserve water during the peak uses of the summer months.
